#### Sing Prayer For Men In Country's Service

The following clipping from a 1917 copy of the Manchester, N. H., Union carries a suggestion which might well be followed by all the churches of our land until the boys come home. At that time the prayer was sung in many of the churches of Manchester and the surrounding towns.

"At the close of the pastoral prayer at the morning service at the Franklin Street church Sunday, the congregation rose and joined the choir in singing the following prayer for the absent soldiers and sailors of the church and society to the tune of "America." The prayer will be a permanent feature of the service as long as the war lasts. It was composed by Dr. Wilfred T. Grenfell. The pray-

#### Nutrition and Canteen Classes Train Leaders

Training classes on canteen conducted by Miss Ethel Walsh, home demonstration agent, will be held at the Bear River Grange Hall, Newry, April 2 and April 13, and at the South Rumford Community Hall, April 3 and April 10. These meetings will conclude the training for the series of meetings for the Civilian Defense Nutrition and Canteen course, conducted by the Extension Service. Training classes on nutrition have already been conducted.

Hundreds of women in the county are attending the meetings and the Farm Bureau leaders have been commended for their teaching. A leader and an assistant from every one of the twenty-nine Farm Bureau communities attend special training classes at which Miss Walsh gives them the information and material for distribution which leaders use to conduct their community meetings.

#### GOULD GRADUATE HEAD OF KEENE NORMAL ALUMNI

Miss B. Marian Brooks, a graduate of Gould Academy, in the class of 1924, presided last Saturday at a meeting of the Southern New England Alumni Association of the State Teachers College of Keene, New Hampshire, held at the Museum of Fine Arts in Boston. For the past two years, Miss Brooks has been president of the organization. Miss Brooks is now supervisor of music in the public schools of Needham, Massachusetts. She lives in the Brighton district of Boston and commutes daily to Needham. In her presidential address to the Association last Saturday, Miss Brooks stressed the importance of effective training of teachers. She has just finished a survey of the preparation of classroom teachers in music in the teachers colleges of the United States

# The Poorest Place to Tell a Lie!

IT has been said by some of our radical reformers that advertising misleads the public.

Such accusations fall under their own weight.

The poorest place in the world to attempt a lie is in the advertising columns of American newspapers and magazines, and in American radio programs. .

In the first place, our publishers and broadcasting companies wouldn't carry dishonest advertising. They outlawed it long ago.

In the second place, such efforts to mislead would be conducted in full view of the public and of the officials empowered to apply fraud laws.

In the third place, dishonest advertising is as inefficient as dirty football. It does not pay.

Informed people have lost interest in the advertising-baiting books and speeches of the radical self-appointed reformers since one after another of them has figured prominently before the House Special Committee on un-American Activities.

We were told that the oceans were, in effect, fortifications which were certain to protect our shores in any extremity, and we believed that. And so the inevitable happened. We and our government terribly underestimated the material strength and striking power of the doe. We thought in terms of "national defense" instead of in terms of "war." We turned our faces away from the unpleasant facts, and dreamed happy dreams of victory. Only lately have the American people and their government come to realize how hard it will be to win this war-how much work we must do if we are to escape the fate of France and the other subjugated countries, which the conquerors are literally using as slave markets.

It does not serve the national interest to minimize the disasters which have befallen the United Nations. In less than four months, Japan has attained mastery of the Pacific and is moving on Australia. She may turn at any minute on India, which is populated with 20 percent of the entire world's manpower; is rich in resources of many kinds, and is torn with internal dissension. Some authorities expect that Hitler may soon at tempt to drive across the Middle ? East. If the drive were successful, "collaboration" with the Nazle. #### TOO MANY ROADS MAY BE EXPENSIVE LUXURY

Sparsely settled roads, contributing to the cost of state and local government, are on of the most serious and widespread rural problems in rural Maine, says Stacy R. Miller, economist in the Maine Extension Service.

A recent study made in central Maine shows how burdensome the cost of little-used roads can become. In one area with 9.6 miles of road and 17 sets of buildings, 3 houses were vacant and 6 others owned by the town. When costs in this area for summer maintenance of roads, plowing snow, and transportation of elementary school children were charged against the Marion Mason, who was sick with total general property tax for the same area the combined net loss to the town and state in 1939 was \$640.81, including relief costs and Grange Deputy, Ellis Davis assisttax delinquency.
